PROFESSIONAL PROFILE

Physician with 10 years of clinical experience across primary care, occupational health and emergency medicine. Applies clinical reasoning, critical appraisal and rigorous medical documentation to assess factual accuracy, unsupported claims and clinically significant omissions. Developing an independent evaluation workflow for AI-generated clinical trial summaries, supported by traceable evidence and explicit review criteria. Completing postgraduate training in AI and Data Science in Healthcare.

HEALTHCARE AI EVALUATION PROJECT

Lay Summary Audit | Independent Healthcare AI Evaluation Project

2026 - Present | Development and evaluation protocol in progress

- Built an initial generator-auditor workflow in which both models use the same structured JSON evidence table; the auditor reviews the summary without access to the original source document.
- Extracted PARAGON-HF evidence into a structured table with field-level references to the published article, tables and sections, and generated a base lay summary.
- Defined an error taxonomy covering unsupported efficacy claims, altered numbers, outcome hierarchy and omissions; developed four test cases, including deliberately injected errors.
- Specified detection criteria requiring the correct error code and unambiguous localisation, with separate evaluation units for commission and omission. Final-panel evaluation and performance metrics remain pending.

CORE SKILLS

- Clinical evidence appraisal
- Medical content review
- Clinical fact-checking
- Patient-safety risk identification
- Error classification
- Plain-language health communication
- Traceable medical documentation

CLINICAL EXPERIENCE

Family and Community Physician

Municipal Health Services - PSF Passa Quatro, Brazil | Jul 2025 - Present

Conduct structured assessments across adult and paediatric populations; apply evidence-based guidance and document clinical decisions to support continuity of care and patient safety.

Occupational Health Physician / Medical Examiner

Uorkimed | Sep 2022 - Jul 2025; Vizimed | Aug 2019 - Mar 2021

Produced structured medical reports requiring consistency, traceable reasoning and defensible risk assessment under external and medico-legal scrutiny.

Family and Community Physician

Municipal Health Services - Brazópolis and Dois Vizinhos, Brazil | Mar 2016 - Jul 2019

Provided comprehensive primary care and patient education across adult, paediatric and maternal health populations.

Emergency / Mobile ICU Physician

Hospital de Caridade de Vargem Grande do Sul, Brazil | Sep 2016 - Feb 2017

Performed rapid clinical assessment and safety-focused decision-making in time-sensitive settings.

EDUCATION & PUBLICATION

Postgraduate Certificate - Artificial Intelligence and Data Science in Healthcare

Instituto de Ensino e Pesquisa do Hospital Sírio-Libanês | May 2026 - Expected Jun 2027 | In progress

Doctor of Medicine - Faculdade de Medicina de Itajubá (FMIT), Brazil | 2010 - 2015

Trotta PB, Rosa KG, et al. Myxoinflammatory Fibroblastic Sarcoma: Case Report. Revista Ciências em Saúde. 2015;5(2):139-147. doi:10.21876/rcsfmit.v5i2.331

Author name incorrectly listed as Karen Guimarães Rosa.
